Vidyabharti Trust College Of Master In Computer Application (MBA) National Level Disaster Management Awareness Training Programme

In Association with, the Sathya Sai Seva Organization Gujarat National Disaster management training has been organised on 21st Oct. 2023. The National level disaster management training Programme was organised consent of Dr. Dhaval Jadav Sir & inaugurated by Prof Vikas Prajapati & Dr Sanket Mehta Disaster management Coordinator, SSSSO, Gujarat . In his inaugural speech he addressed important issues regarding the Disaster Management. He spoke about activities to do before, during and after any disaster.

The training began with an introduction by Dr Sanket Mehta about Disaster Management Awareness Training : its aim, vision, mission, purpose, and programmes and activities carried out all over Karnataka by the team. It was followed by a session on ‘Earthquake Disaster’ Participants were told about the causes of earthquake , and the precautionary methods to be followed during Earth Quake, Floods etc.

The trainer educated the students on first aid techniques.He also asked students to make first aid as a part of their education in their life so that they could extend their knowledge by

saving the life of others at the time of emergency. He demonstrated a few first aid techniques with the help of students.

In the afternoon, the practical sessions were held and students were made aware about Do & Donts during and after the disaster. Later, demonstrations of different rescue tools in different types of disasters were demonstrated with the help of participants. Precautions to be taken in helping victims, shifting victims to nearby safe places and to hospitals were explained during the session.

The training was quite effective for the learning for both students and faculty members to learn the rescue strategies at difficult time of natural calamities, all the students who have participated were given the certified participation national level govt. certificate for the same.
