INDUSTRIAL VISIT AT SHREE KHEDUT SAHKARI KHAND UDHYOG MANDALI LIMITED-BARDOLI

- Shree Khedut Sahakari Khand Udyog Mandli Ltd. located at Baben-Bardoli is the first sugar factory started in co-operative sector in Gujarat in the year 1955. The society is largest Cooperative sugar factory in Asia. The society was started with 850 TCD(tons cane per day) crushing & presently the capacity of the plant is 10000 TCD..
- The sugar factory was commissioned in February, 1955. The plant was very old and big. Its initial crushing capacity was 850 per day. It was partly steam driven and partly

electric driven. Hence, the board and executives of the society went on making additions and alternatives in plant continuously every year. According to technical priority of machineries and funds availability.

- The factory have its own most modern and well equipped Research station and also a Research farm of 50 acres is attached to the Research station, soil plant & manure analysis are being carried out in the Laboratory. Different types of fertilizers and insecticides are stocked and supplied to farmers at subsidized rates.
- The factory have started different project like Tissue culture project, Wormy compost project, Bio-compost project, Bio-pesticide Laboratory etc. to get more yield and sugar recovery and to minimize the pest problem . The factory is always keen interested to develop new promising sugarcane varieties. At present there are about 80 sugarcane varieties under trial since last three years . these new varieties were planted and multiplied in the different fields and we are observing the sugarcane yield as well as recovery by taking actual mill test in our factory . The bye-product viz. molasses and bagasse is being sold to distilleries, cattle feed, factories as well as paper plants respectively. The press mud is being sold to farmers members at nominal rate to use as a manure.
