Vidyabharti Trust College of Master in Computer Application, Umrakh

TREE PLANTATION

On 19th October 2023, The Vidyabharti Trust College of Master in Computer Application had successfully completed the event of Tree Plantation at college campus. Trees are the foremost source for producing the oxygen in the environment, they help to reduce the level of CO2. As we all know that the whole world is facing the problem of global warming and to recover from such problems planting trees has become one of the most important aspects today. The event began with Dr. Dhaval Jadhav, the principal of VBT MCA, Faculty members and Students. During the plantation our principal also addressed the volunteers and passed a message of kindness & being helpful to the needy people. He also said that dedication is must to accomplish the goals and dreams in life. A very first tree plant by Dr.Dhaval Jadhav, in college premises and then Head of the Department also planted a tree. Total tree planted by all others including teachers, volunteers and students was more than 30 on that day.

All were happy and proud after the tree plantation event was finished, because it really feels great to do something positive for nature.

Glimpse of the Day:

“Trees are my guru. They continue to give unconditionally even when you pelt them with stones to take their fruit, and even if you cut them down. Trees give life. Let’s reciprocate that. Plant more trees.” —APJ Abdul Kalam
